Providing **Volunteers**
to enable **elders and others**
to live **independently** in their homes.

This is all done through our wonderful volunteers.

We love our Volunteers. Do you have a heart of service?
Looking for a way to give back in our community?
Visit our website for volunteer opportunities and application on our
website at www.interlinkvolunteers.org

The mission of Interlink is to enable seniors and people with disabilities to live independently in their own homes. There is NEVER a charge for Interlink Services. Interlink does not discriminate based on race, color, gender, religion, national origin, age or disability. We are a 501©3 organization.

For residents of Nez Perce, Idaho and Asotin, Washington.

Our Services

 **5,667 rides given.**

In order to promote independent living and reduce isolation, we provide transportation to and from:

Health care appointments and to pick up prescription medication.
Grocery and personal shopping. We are able to shop with you, if you need a hand.
Visits with a spouse in a facility

To request service, please call our office or visit our website. We request 48 hour notice in advance to coordinate transportation requests. Volunteers use their own vehicles to provide this service.

 **12 ramps built.**

Another way we promote independent living for our elders and people with disabilities is through the construction of wheelchair ramps by our volunteers. Most of us are able to comfortably manage entering and exiting our home. Some of our physically disabled neighbors find it difficult, if not impossible, to leave their home as stairs become a major obstacle. It is possible that some of these folks could have to give up their independence by moving from their home due to their inability to come and go to access necessary services. By providing these neighbors with a wheelchair ramp, we are able to provide a way for these folks to continue living independently in their own homes. We believe the ability to live independently in one's own home provides a higher quality of life for anyone and their family.

To request service, please call our office or visit our website.
The usual lead time on building a new ramp is 4 weeks.

 **215 handyman services provided.**

Following a home assessment, our volunteers can install a grab bar, replace a screen, make small plumbing repairs and complete other similar small household repairs. To request service, please call our office or visit our website.
The usual lead time on yardwork requests is 10 days.

 **62 yardwork services provided.**

Following a home assessment, our volunteers perform general yardwork. This includes raking leaves, pulling weeds, limited trimming of trees, bushes and hauling yard waste. Volunteers will provide their own yard tools. Yardwork projects make great group volunteer projects for community and faith-based groups. To request service, please call our office or visit our website. The usual lead time on yardwork requests is 10 days.
